

Seniors' Conference 2011: Agents of Change

Session Title:	15 Sense of Perspective on Climate Change
Convenor:	Ross
Participants:	Don, Ross, Sue, Zina, Mary, Polina

Summary of Discussions:

- Horizons of change are getting closer
- Catalyst activities directly related to community activities – sustainable communities – proper infrastructure before housing families
- The environment is to be given priority over economics
- Catalyst for leaders & leadership. Sustainable = capacity to survive
- Food is more important than coal
- Regional system for solar power

Habitat Thinking

We inherit our habitat

Tomorrow's habitat is determined today

It is our responsibility to manage change

Our habitat is a source of:

- *Resources*
- *Scientific information*
- *Refreshment and renewal*

From "A Policy for Conservationists" by G.L. Kesteven (1968)
